AMENDMENTS TO THE CLAIMS

1. (Currently amended) A <u>computer-implementable</u> system for promoting

pharmaceutical drugs, comprising:

a set of brand rules for guiding a distribution of drug samples of a drug; and

a drug sample fulfillment platform for implementing the set of brand rules to allow a

prescriber to obtain drug samples to dispense to a patient without the use of a sales

representative.

2. (Original) The system of Claim 1, wherein drug samples include physical

samples.

3. (Original) The system of Claim 1, wherein drug samples include a pad of pre-

printed vouchers.

4. (Original) The system of Claim 1, wherein drug samples include a coupon

printed in the office of the prescriber, which is networked to the drug sample fulfillment

platform.

5. (Original) The system of Claim 1, wherein the drug samples, which are in a

printed form, are redeemable at a pharmacy, redeemed data being generated by the drug sample

fulfillment platform for refining the brand rules so as to better guide distribution of the drug

samples.

6. (Original) A system for distributing pharmaceutical drugs, comprising:

a drug sample fulfillment platform for accessing drug sample services; and

a first set of Web pages coupled to the drug sample fulfillment platform through which a

prescriber can access the drug sample fulfillment platform to order drug samples.

7. (Original) The system of Claim 6, further comprising a second set of Web pages

coupled to the drug sample fulfillment platform through which a sales representative can access

the drug sample fulfillment platform to print coupons.

8. (Original) The system of Claim 6, further comprising a third set of Web pages

coupled to the drug sample fulfillment platform through which a patient can access the drug

sample fulfillment platform to obtain sample vouchers.

9. (Original) The system of Claim 6, wherein the first set of Web pages display a

list of drug samples available to the prescriber to order drug samples in a form selected from a

group consisting of physical samples, pre-printed vouchers, and print on-demand coupons.

10. (Original) The system of Claim 6, wherein the first set of Web pages display a

list of the order history of the prescriber, the list including a date and a drug sample ordered by

the prescriber.

11-15. (Canceled)

16. (Previously presented) A drug sample fulfillment platform, comprising:

a drug sample Web site for mating with a portal that is selected from a group consisting

of prescriber-oriented Web portals, an e-Detailing service, a Web site regarding a drug brand,

and an online physician learning site; and

a request database for receiving requests of a prescriber through the drug sample Web site

for drug samples, the request database responding to the prescriber by allowing the prescriber to

print coupons or to print an order form for physical samples or pads of pre-printed vouchers.

17. (Original) The drug sample fulfillment platform of Claim 16, wherein the request

database receives claim information when a patient redeems a print coupon or a pre-printed

voucher for physical samples.

18. (Original) The drug sample fulfillment platform of Claim 17, wherein the request

database produces a first report accounting for the number of coupons or vouchers redeemed by

patients of the prescriber.

19. (Original) The drug sample fulfillment platform of Claim 18, wherein the request

database produces a second report correlating an allocation of drug samples of a drug to the

prescriber with the number of prescriptions written by the prescriber relating to the drug.

20. (Original) The drug sample fulfillment platform of Claim 19, wherein the request

database produces a third report accounting for the monetary amount spent by a pharmaceutical

company on a drug sample fulfillment program for a drug and a monetary amount associated

with prescriptions written by the prescriber for the drug.

21. (Original) A networked system for ordering pharmaceutical sample drugs,

comprising:

a drug sample fulfillment platform that comprises a drug sample Web site for mating with

a Web portal when a prescriber selects a hyperlink, the drug sample Web site presenting a Web

page including selectable options for the prescriber to order drug samples.

22. (Original) The networked system of Claim 21, wherein the drug samples are in a

form selected from a group consisting of physical samples and pre-printed vouchers.

23. (Original) The networked system of Claim 21, wherein the selectable options of

the Web page include a quantity for each drug sample, which is specifiable by the prescriber.

24. (Original) The networked system of Claim 21, the selectable options of the Web

page include a delivery location to which the drug samples will be shipped.

25. (Original) The networked system of Claim 21, wherein the selectable options of

the Web page include an option for printing on-demand vouchers on a printer in the office of the

prescriber.

26. (Withdrawn) A method for selecting prescribers for a drug sample distribution,

comprising:

dividing prescribers into one or more segments based on pharma brand manager defined

criteria;

within a segment, associating products, allocation quantity, sample type that is selected

from a group consisting of live samples, pre-printed, and print on-demand, and drug strength

from either within or between brands based on brand rules; and

within a segment, associating timing considerations that are selected from a group

consisting of sample offer time limit and rolling expiration dates for vouchers from either within

or between brands based on brand rules.

27. (Withdrawn) The method of Claim 26, further comprising within a segment, the

association of a combination of sample types to be made available to the prescribers, a sample
